

livingskin™ is a line of passive functional prostheses made with high definition silicone, which offers solutions that match skin tone and appearance for a variety of patients.

Product Features

- Custom sculpting and painting ensure an individualized fit including:
 - Optimum match to patient skin tone
 - Personalized detail with hair, freckles, moles or scarring
- Functional capabilities can assist in Activities of Daily Living such as pushing, pulling, stabilizing, supporting, light grasping, and typing
- Skin color and other features are beneath the outer clear silicone layer to prevent fading
- SeasonGuard® can help adjust the color to ensure match throughout the year
- Adjustable armatures may be fitted to allow prepositioning of each finger for specific tasks

Benefits

- Silicone provides a versatile, durable and virtually stain-proof prosthetic option
- Market leading customer service offers:
 - High quality product and turnaround times
 - Experienced team that manages technical challenges
- Complementary solution to a myoelectric prosthesis to alternate with passive prosthesis as desired

Acceptance Guarantee

Touch Bionics is committed to deliver the highest quality **livingskin** products. Our Acceptance Guarantee ensures that the product is delivered to meet your patient's needs.

Ordering a livingskin Prosthesis

We offer three programs for clinicians who would like to fit a **livingskin** prosthesis.

my livingskin

Our revolutionary iPad-based color capture system enables you to accurately match skin tones and select features such as hair, nails, veins, or freckles. With an intuitive design, the easy on screen step-by-step instruction guides you through the entire process resulting in a high quality prosthesis or customized i-limb skin match covering.

On-site Clinics

Touch Bionics can arrange for our clinical staff to come to your practice to assist with fitting your patients. A minimum of four patients must be scheduled on the day of visit.

Remote Clinics

Customers may schedule to visit one of Touch Bionics' clinics where we provide established clinical services at locations throughout North America. To learn more about our available clinics or if you are interested in scheduling a patient, please call 1-855-MYiLIMB.

Reimbursement and Billing Assistance

Our dedicated reimbursement staff can assist you with achieving insurance authorization for a **livingskin** prosthesis. Call 1-855-MYiLIMB for assistance.
